

Our Basic Skills Motto

We want to have the ability to use our maths and literacy in every subject and in everything we do.

We want to work to the best of our abilities to read and write to a high standard, because it will help us to excel in our future challenges and endeavours.

We can do this by:

- Challenging ourselves on a daily basis
- Always having a try at everything
- Giving our best at all times
- Always listening in class
- Asking questions when we do not understand something
- Speaking in full sentences
- Learning another language
- Gaining confidence through speaking in class to an audience
- Reading every day for at least 10 minutes
- Completing homework every week.
